SATURDAY, FEBRUARY 12, 1881.

To-DAY is the Anniversary of the accession of KING KALAKAUA to the Hawaiian Throne. The choice of His Majesty by the Nobles and Representatives of the People on the 12th day of February, 1874, was attended with the violent outbreak of a mob, who beat the Representatives and gutted the Legislative Hall. This popular fury must be regarded as remarkable, since the Chosen Prince received all but six of the votes of the Assembly. However, the mal-contents were confined to the city and vicinity; and we have seen recently the loyal demonstrations to the King of the chief islands of the group; and at this day, KING KALAKAUA is firmly established in the hearts of all his People. For we see men who opposed his elevation enjoying places of trust and emolument; and many of the rioters of 1874 will join in cession in 1881.

It is the duty of every one in the community to aid the Health authorities to combat the epidemic in our midst, whatever may be the views of negligence or malfeasance of officials.

THE claims of British importers for drawback, or the repayment of duties paid under protest in 1877, have been presented to the Government by Mr. T. H. DAVIES.

A CORRESPONDENT, who is a planter, referring to our discussion of charges on planters' produce in last Saturday's Issue, and other matters, says: "Agents of Plantations reap large harvests from the sweat and agony of long suffering planters." Now we must say that such strong language is hardly applicable to agents of plantations in Honolulu, who derive only a moderate 21 per cent. commission for much sercollects 5 per cent., or one ton in every twenty of sugar received from our planters for the nominal sale of sugar that has a diplomatic breeze of which we hope to already been sold, by a pre-contract. This is a gouge with a vengeance, that we wonder the planters can stand.

THE Health Department needs an independent head. We note a good deal that indicates confusion and misdirection in its operation. Stringent measures are misapplied, or adopted too late. Stringent quarantine should begin at the first entry of a vessel. Exceptions should not be made in

behalf of one class of passengers. One man to slip away on a steamer, whilst othersequally as anxious are strictly quarantined | nal draft in English, prepared by her in the city. Any patient who has a home | advisers : and a family should not be carted away to a pest house, while another is quarantined at his own domicile. And it seems a useless precaution to station a constable to watch an empty yard from which a patient has been taken, whilst the drivers of a pest cart or the workers at a pest house come and go freely among the people of the city. And other matters in reference to the present health admistration might be mentioned to show that an important administrative officer should not have too many irons in the fire; that the Health Department should be separated from the Interior administration; that it should have a paid President, and independent headquarters, where there could be organized a more thorough, impartial, and efficient sanitary work than at present can be carried out.

ENGLAND has a vital and difficult question to settle; her ominous Irish question. Why can she not settle it with peace and perfect union, even as she settled her Scottish question? Perhaps a Flodden or a Bannockburn must take place on Irish soil to inspire more mutual respect between English and Irish, before a perfect union can be established. Races and peoples that have fought each other heartily can become very fast friends afterwards. Irishmen that delight in fight, and have fought so well in every part of the world, feel that they have not had any grand historical battles on their own soil, and young Ireland wants a grand bloody historical field or two. But we hope, that it will not need the carnage of a Waterloo to cement the union of Britannia and Hibernia. All liberty loving races must rejoice to see the mother English speaking Empire united and strong; and feel that it is a pity for bitter variance. The anarchy of Ireland disease. must rejoice the heart of PETER's old Russia, that trod down Poland under the iron heel; or of the fanatic Ottoman, the enslaver of Greece and Asia Minor. And it must rejoice the blood and iron men of militarism to see England; enlightened and philanthropic old England, sending her guards to coerce her Irish brethren. England should do better than this. Her advancing statesmanship has learned to shape her policy to promote her people's welfare, rather than the interest of property, as of old; and it ought to settle this Irish question nobly and harmonieusly. The glory of harmonizing Ireland, and of establishing her, in perfect, free, and con-

stitutional union with her sister communi-

ties, will be greater than the glories of

many bloody fields; and if this cannot be :

if brave peoples cannot be truly and

happily harmonised and united, because

the Moloch of vested interests bars the way;

THE SMALL POX.

Since the last publication of names, the following new cases of small pox have been

Miss Saxton, Honolulu; Kuanaliwa, (k) Pauoa; Makanui (k), Kepehoni; Nelly Solomon, Honolulu; Namahana, (k) Honolulu; Chinese girl, Kaneohe; Awai, (Chinese) Kailua.

Pilmoku one of the female patients at the hospital on the reef, died yesterday morning. Two cases are reported at Ewa and a constable left yesterday to inquire into them and take any steps that may prove necessary. Two cases have also been reported at the residence of Dr. Thacher, dentist, on Beretania street. These, with those previously reported, make 49 cases in all.

The Chinaman, Awai, whose case is reported from Kailua, left Honolulu surreptitiously on Wednesday 2d inst, and when discovered by the police was found to be ill

of the small pox. The Board of Health has engaged the services of Dr. Kennedy as physician for the Koolau district. Dr. Kennedy has paid an official visit to Waimanalo and reports that there is no foundation for the rumor which was circulated that cases of small pox had occured there.

The Board of Health desire it to be known that they will be glad to receive old clothing and old linen, for males and females for the use of the quarantine patients. Donations of this sort, if sent to the station house, will be received with thanks and forwarded to their destination.

A report was received yesterday afternoon from Dr. Kennedy stating that he had investigated a great many rumors of cases in Koolau, and he was glad to report them all without foundation. There are in the district only the two Chinese cases reported at Kaneohe and in these the patients have just recently gone over there from Honolulu, and are now being kept in strict

The Hon. Mr. Cummins has taken sharp precautions to isolate Waimanalo from infection of small pox. Only persons who have special personal business to transact will be allowed upon the grounds of the Waimanacelebrating the commemoration of the ac- lo plantation until further notice, and these will be restricted to certain particular places of meeting which have been designated for the purpose.

9 A. M.-Two cases reported from Ewa confirmed. A new case in Queen Emma's

THERE is some feeling about the fate of Dejean, the restaurant keeper. On the outbreak of the small pox, recently, the foreign representatives called upon our Foreign Minister, and after some representations received an assurance that any subject of Foreign Powers, who should be attacked with the small pox and who had a home and family, should be cared for and quarantined in his own domicile; and the day after this understanding. Delean is taken sick, and subsequently removed in a pest cart to the pest house on the reef, and shortly after his arrival there dies ;-his wife who accompanied him writing a sad vice and care, as we have before said, in con- letter to the acting French Commissioner, nection with the shipment of produce; but is about the removal of her husband against applicable to the San Francisco agent, who her protestations of ability to care for him at his home, and the misery and discomforts at the pest house. This has stirred up give full particulars in our next issue. We since learn that Madame Dejean has written another letter expressing her satisfaction at the arrangements that have been made for her at the Quarantine Etation.

THE PRINCESS REGENT'S REPLY.

We publish a translation of the reply of the Princess Regent to the Resolutions of the Kaumakapili Meeting, which we find ankious to go home should not be allowed in the Ko Hawaii Pac Aina, as we have not been able to obtain a copy of the origi-

> GENTLEMEN :- You have laid before me resolutions of a meeting of the people regarding small-pox, now in our midst, which is a cause of

This disease has destroyed races in times past, and we cannot hope to escape it always. The first appearance of this disease among us was in 1853, at a time the natives did not appreciate its serious nature, and the loss of life was great; but on its re-appearance in 1863 and 1872, our peo-ple did not suffer so much, because they bad suffered from it in 1853, and they were more willing to listen to advice and to do all they could to prevent its spread; and it did not spread much, neither did it spread much on its last appearance in 1877.

in the month of December last, there arrived a steamer from San Francisco without the knowledge of any one, that there was a case of small pox on board; and a passenger came ashore, on whom small pox broke out afterwards. With all proper and careful precautions and watching, it is impossible to prevent such an accident se this; and it goes to show that other races are just as much liable to contract sickness as we are. The disease did not spread from this person.

The second time was when the steamer Casandra arrived from China, from which ressel was landed secretly one man with the small pox, the captain having previously stated that there was no disease on board. This man was hidden from our authorities on board, and was landed at night. Every means of providing for the public safety was brought to bear, and by measures being strictly enforced, no danger arose from this

All cases that have been discovered since, originated on board the Quinta, which arrived on the 12th of January, with a report that there was no sickness on board. There were four passengers who died at sea, and on questioning the captain, he stated that they did not die of any contagious disorder, and there was no reason at the time to doubt the truth of what he said.

After the sailing of that vessel, men, part of her crew who ran away from her, told that those who died at sea had small pox, and there were two Chinamen on King street who had the disease lightly. From observations; there was two sister isles, so prolific each one in brave and generous people, to be ever at such from the sailors that our people have caught the

So it must be evident to you, that It is not by

any watchfulness of our authorities that false statements of captains can be prevented, Do you understand that my heart is afflicted with great sorrow, and I hope this sickness will not spread among us. I am doing and always will do, all that lies in my power to prevent its spread, and I strongly urge all to help me to stay it, by obeying the advice of those in authority and physicians; and I also urge the people strongly to go to places of vaccination and be vaccinated, and to stop the meeting together of a

mass of people, and to report to the authorities those who may get the disease.

Regarding this thing I would like it well understood, I personally saw within the past few days, attempts being made to carry off patients and hide them in the outer districts, where no medical aid could reach them, and thus cause the sickness to spread and infect those who otherwise mighn have escaped, I ask you all friends, of what use is a careful watchfulness, if such foolish and mischievous work as hiding away the sick is done? I again ask you all to urge the people to give information about those who may be infected with the disease, and to help those who are entrusted with the care of the health of then there is a dearth of true greatness, and of the genius of true statesmanship in do all I can, to procure all the needed help.

(eigned) LILIUOKALANT, P. R.

The Ill Omened Year.

"The world to an end shall com In Eighteen Hundred and Eighty One."

-Mother Shipton's Prophecy.

So many of Mother Shipton's prophecies are supposed to have come true, that this last awakens apprehensions in many minds, and stimulates the lugubrious vaticinations of Millerites, Adventists, and alarmists generally. And scientists come forward to give effect to the old lady's lines of doom. The British astronomer, Piazzi Smith, who interpreted the symbolism of the great Pyramid of Cheops, had determined from it that a cataclysm of this earth was in order for 1881; and an overwhelming belief has prevailed in many minds, who have read his views, that this planet will have a dreadful experience during this year. "The sycthe of death was to be put to the harvest in the far east and to sweep westward, with a swathe as broad as the continent, until it reached the Pacific Ocean. Plagues. famines, pestilences, earthquakes, floods and tornadoes were to scourge the human race until only a few remained to repeople the earth with a sturdier and more God-fearing race."

And then the astronomers have set the heavenly bost, or at least all the Olympian gods in array against poor Mother Earth, especially Jupiter, Mars, Venus, Saturn and Uranus, who are to be in joint perihelion, or holding Privy Council with the Sun : although the great star gazer Proctor, casts some doubt upon this celestial confederation ; and it is a pity we did not get hold of him, and interview him, when he lately called at Honolulu, en route eastward, and get our minds cleared up in regard to this antiterrestrial solar and planetary conspiracy. However, a judicious authority says, " all star gazers will have plenty of phenomena in the heavens to occupy their attention this year (1881). The sky will not present such brillliant pageants again this century. There will be a remarkable series of conjunctions, and double and triple conjunctions. The most interesting of these is the great twenty-year conjunction of Jupiter and Saturn in April. This conjunction is one of the strongholds of the astrologers. As it occurs in the sign Taurus which they say rules Turkey and Ireland, they feel safe, on account

There will also be conjunctions of Jupiter and Mars; of Venue and Jupiter, and of Saturn and Venus and the far away Titans, Uranus and Neptune will play a part in this remarkable planetary levee." Venus will reach her greatest brightness in the spring, and will be so brilliant as to be visible at

of recent occurrences. in predicting very momento us

effects in those countries from the conjunction .

This will strain all our eyes sky-ward to gaze on the lovely Venus, looking down benignantly upon our Archipelago in spite of the ardent splendor of angry Phoebus; and will inspire hope to us islanders that the Ocean Born will protect her Oceanic children But to return to Mother Ship'on-as one of her

latter prophecies was that "England would accep" a Jew ; " and as England has done so, and is likely to do so again, and place the reins of empire in the hands of the son of Isaac Disraeli, the Jew. her 'ast prophecy acquires a profounder significance in minds prone to forget the duties of the world they live in to think of some other one they may go to where they can do what they neglect to do here. It is well to have something to arouse some earnestness in certain natures; and if the hope of a Divine Redeemer does not awaken them, the fear of a witch's prophecy, and a planetary calaclysm may arouse them. We hope to record in the P. C. ADVERTISER the events in Hawaii nei of 1881

ISLAND NEWS.

A disastrous fire occured at Mr. Afong's Plantation at Haupakuea, on Hawaii, on Saturday last ; saused by fire crackers, during the celebration of the Chinese New Year. Nearly all the men's quarters were burned to the ground, also about two acres of growing cane belonging to the natives were destroy ed. The disaster occurred during the fury of the late Kone storm, which blew down some 1500 feet of the new fine, and a great deal of ripe cane. A large trash house was also blown over. Mr. Afong estimates his actual loss from fire and storm at \$5000; besides damages to result from loss of time in repairing the flume; and consequent loss of the cane blown down, having no means of getting it to the mill, until the flume is repaired.
